

## General Description

ProChem® Dehazer 130 is a paste ghost/image stain remover that is designed for all ink systems. ProChem® Dehazer 130's blend of water-based alkaline cleaners and solvent active detergents completely clean the mesh of stains.

ProChem® Dehazer 130 is designed to work fast, which greatly increases screen turn-around.

## ADVANTAGES

- Creamy Paste
- Fast Acting
- Biodegradable / Drain Safe
- Low Odor
- Low VOC (Volatile Organic Compound)
- High Load Capacity to Reduce Usage
- Non Flammable
- Mesh Safe
- Ideal for use on Multiple Deep Stains
- Contains a Proprietary Mesh Protector

### Quick Tip:

Flood rinse (hose pressure) the screen prior to the high pressure step.

This will eliminate the product from being atomized in the air (blow back)

*\*Use of a High Pressure Unit Greatly Increases Product Performance.*

## Application

**Step 1.** Apply Dehazer 130 to both sides of the screen.

**Step 2.** Scrub screen with non-abrasive pad or brush. Allow screen to dwell up to 10 minutes.

**Step 3.** High pressure rinse - starting at bottom.
